BRONZE AND FRUITY

These giant bronze apples are the work of Brazilian designer and ceramicist Lisa Pappon. Her designs for Bull & Stein are available from Urban Living Interiors. Prices start at £800. (urbanlivinginteriors.co.uk)

Wallflowers

► Living walls are great for adding colour and texture to courtyards and gardens of any size. Garden Club London tailors the planting scheme to suit the specific aspect and position of the wall. The wall is also fitted with an irrigation system. For permanent installations a fixed system is used but simple hanging fabric pockets are more suitable for seasonal displays such as peas, courgettes and edible flowers. (gardenclublondon.co.uk)

Caged beauty

► These outdoor lights are inspired by traditional Victorian wire birdcages. A dedicated range of hooks and accessories means it can be free-standing, hanging or staked into the ground. It has a fibreglass shade and can be electric or battery operated. The light itself costs £590. (keirtownsend.com)
